WAREHOUSE & ECOMMERCE PROPOSAL

Your stock, handled.

Storage, pick-and-pack and last-mile delivery from one team in Accra. We hold your inventory, process your orders and hand every parcel to our riders, so your business can keep selling without building a warehouse desk.

PREPARED FOR	LOCATION	ACCESS
Ecommerce & retail partners	Greater Accra, Ghana	24/7 inventory data

One operation, from shelf to door.

Receive stock into our secure facility, keep it under real-time inventory control, and let us pick, pack and dispatch each order. Your team sees the same stock and order status we work from, without the overhead of running a warehouse of your own.

FULFILMENT SERVICES

Storage and dispatch, under one roof.

01

Warehouse storage

Secure storage facilities with climate control, organised for fast picking and clean stock control.

02

Pick & pack

Order processing and packaging handled by our team, ready for same-day last-mile dispatch.

03

Inventory management

Real-time inventory tracking and management, with automated procurement processes.

04

24/7 visibility

Access your inventory data at any time, with one dispatch contact for escalations.

The flow

1

Receive

Stock arrives and is logged into the warehouse.

2

Store

Inventory is held securely and tracked in real time.

3

Pick & pack

Your order is picked, checked and packaged.

4

Dispatch

A rider collects and delivers it to the customer.

Move volume without the overhead.

Share your monthly order volume and storage needs. We will scope a fulfilment plan around your catalogue and delivery area.
